SIR:

DECLARATION UNDER 37 CFR 1.131

The undersigned declare as follows:

1. We are co-inventors of the above-identified application assigned to the President and Fellows of Harvard College.
2. Prior to September, 2000, we had reduced to practice reactions preparing macrocyclic molecules by contacting an excised thioesterase (TE) domain with a substrate that contained a nucleophile and an activated acyl residue.
3. Prior to September, 2000, we had reduced to practice macrocyclization substrates for use in preparing macrocyclic molecules that contained a nucleophile and an activated thioester group.
4. Prior to September, 2000, such macrocyclization substrates had been contacted in an aqueous media with a purified excised TE domain under conditions conducive to macrocycle formation. As evidence thereof, attached as Exhibit 1 are selected portions of a disclosure of the subject matter of the above-identified application. The disclosure attached as Exhibit 1 was generated, and actual experimental work disclosed therein was performed, prior to September, 2000. Portions of the disclosure attached as Exhibit 1, including specific dates, have been removed.
